PROFILE

Electronics and Communication Engineering undergraduate seeking a Software Intern role, with a strong interest in Python, Java, artificial intelligence, and machine learning. Experienced in building practical, privacy-aware, rule-based systems through structured logical design and clean implementation.

EDUCATION

Bachelor of Engineering (B.E.) — Electronics and Communication Engineering *Expected 2025*

VSB Engineering College, Karur | CGPA: 8.05

TECHNICAL SKILLS

- Programming Languages: Python, Java, C, C++
- Concepts: Artificial Intelligence Fundamentals, Machine Learning, Logical System Design, Structured Programming
- Languages Known: Tamil, English, Hindi

PROJECTS

Offline AI Health Agent — “Health Teacher”

Python | github.com/asmie11052008-lab/health_teacher

- Built an offline AI health guidance system for integrated health maintenance, with no internet or cloud dependency.
- Implemented rule-based intelligent logic to generate personalized health guidance.
- Structured the system into modules covering diet, exercise, hygiene, and general wellness.
- Designed a privacy-focused, fully offline execution architecture to keep user data local.

AI-Powered Crop Prediction and Optimization System

Python, AI Concepts, Web-Based System Design

- Built an integrated AI-powered agricultural website that predicts suitable crops and suggests optimization strategies using soil, weather, and historical farming data.
- Developed a crop prediction module to support data-driven farming decisions.
- Added optimization features to improve productivity and reduce resource waste.
- Designed a farmer work verification and marking system to assess farming activity.

INTERNSHIP EXPERIENCE

Crescent Infotech

Erode

- Gained practical exposure to software development workflows, technical problem-solving, and professional communication in an industry setting.

Tamil Nadu Newsprint and Papers Limited (TNPL)

Karur

- Gained hands-on experience in an industrial environment; developed adaptability, teamwork, and workplace discipline.

WORKSHOPS & ACHIEVEMENTS

- Robotics and Automation with Embedded Systems — national-level workshop at VARNAM'26, Karpagam Institute of Technology, Coimbatore (Feb 3–7, 2026); gained hands-on exposure to robotics, automation, and embedded systems.

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge.
